

Document Summary TASK-290089DA

Analysis & Generated Response

Purpose & Standards:

- **Purpose:** The IT Security & Remote Work SOP defines mandatory security measures for 50+ Full-Time Staff operating across hybrid environments.
- **Standards:**
 - All corporate laptops must run company-managed Endpoint Detection & Response (EDR) software and keep BitLocker/FileVault disk encryption enabled.
 - Authentication:
 - Passwords are a minimum of 14 characters, stored using corporate password managers.
 - Multi-Factor Authentication (MFA) is mandatory on all accounts (Google Workspace, GitHub, AWS).

Hardware & Password Governance:

- **Hardware:**
 - All corporate laptops must run company-managed Endpoint Detection & Response (EDR) software and keep BitLocker/FileVault disk encryption enabled.
- **Password Management:**
 - Passwords are a minimum of 14 characters, stored using corporate password managers.

Remote Work & Network Access SOP:

- **Network Access:**
 - Staff connecting from remote locations or public Wi-Fi must route all traffic through the official NexusTech WireGuard VPN.
- **Data Transfer Restrictions:**
 - Production datasets and customer Personal Identifiable Information (PII) cannot be downloaded onto personal devices or unencrypted USB drives.

Incident Response SOP:

- **Incident Response:**
 - In case of a lost device or compromised credential, an employee should report to security@nexustech.com within 30 minutes. Security Audits are performed quarterly with non-compliant devices automatically losing network access.

NEXUSTECH SOLUTIONS INC. (Nexustech Solutions Inc.):

- **Operations & Governance:**

- The company's operations and governance manual outlines confidentiality, integrity, availability, and accountability of its internal and external compliance.

- **Confidential Internal & External Compliance Manual:**

- This document provides guidelines for maintaining the organization's confidential information.

- **NexusTech Solutions Inc. — Confidential Internal & External Compliance Manual:**

- This section details the organization's policies on data protection, access control, and reporting mechanisms to ensure adherence to legal and regulatory requirements.
