

Document Summary TASK-31DB9DE7

Analysis & Generated Response

- **Title:** Sovereign AI Workbench for Confidential Industrial Work (Sih26117)
- **Problem Statement:** The problem is to create an open-source platform that can handle confidential industrial work using on-premise agentic AI models.
- **Team ID and Name:** TEAM ADRESTIA
- **Team Members:**
 - Adrestia
 - Adrestia
- **Theme:** Smart Automation, Open-Weight Multimodal LLMs for Confidential Industrial Work
- **Document Content:**
 - **Problem Statement (SIH26117):** The document outlines a problem statement related to the creation of an open-source platform that can handle confidential industrial work using on-premise agentic AI models.
 - **Theme:** Smart Automation
 - **Description:** The theme revolves around automation and intelligent systems for managing confidential data.
- **Team Members:** Adrestia
- **Document Content (continued):**
 - **Problem Statement ID – SIH26117**
 - **Problem Statement Title:** "Sovereign On-Premise Agentic AI Workbench using Open-Weight Multimodal LLMs for Confidential Industrial Work"
 - **Theme:** Smart Automation
 - **PS Category:** Software
 - **Team ID:**
 - **Adrestia**
 - **Team Name:** TEAM ADRESTIA
 - **Policy/Security Gate (Policy / Security Gate):** The team has a policy and security gate to ensure that the platform is secure, controlled, and compliant with regulations.
- **Technical Approach:**
 - **User Request (Input):**
 - **PDF • Scan • Image • Drawing • Code**
 - **Local OCR + Vision:** To extract text from images and drawings using local OCR technology.
 - **Private SOPs / Manuals:** To collect detailed information about the platform, including documentation and manuals.
- **Plan:**

- Agent creates a task plan
- Local models are selected for each task
- Tools are created to automate tasks
- **Execution:**
 - Local models are deployed on an infrastructure that is secure and controlled by the team.
- **Verification:**
 - The sandbox environment is verified, and evidence is collected.
- **Delivery:**
 - Word, Excel, PPT, Code, Text
 - Deliverables include a word document, an excel file, a ppt presentation, code files, and text documents.
